

Connect with Any Device, Capture Every Conversation

The only comprehensive enterprise voice solution for both inbound and outbound teams on Salesforce.

- > Connect to your CRM with any dial tone provider and any device — desktop, cell phone, or VoIP.
- > Speed up your workflow and provide contextual, high-value messaging with every call.

Using standard Salesforce reports, build targeted campaigns that scale and drive results.

Built natively inside of Salesforce, Conquer Voice automatically captures all activity and logs it to the CRM, freeing up time and focus.

Industry leading brands trust Conquer Voice because...

- 01.** Conquer maintains a network of Tier One telephony carriers to eliminate call delays and latency.
- 02.** With our team of in-house telephony experts, we provide direct support to fix any possible issues.
- 03.** Conquer blocks non-compliant calls before they happen, keeping customer relationships healthy.

“I’m more productive and efficient with Conquer. I make over a hundred calls a day, and being able to click a number and have the phone call begin makes my job even easier.

- Account Manager, Sacramento Kings
